We will talk, discuss, and have some interactive games based on the stereotypes and common cultural norms found in my home country, Australia. We will discuss common native Czech mistakes and practice those phrasal verbs and idioms that are so confusing for even the best English students. As an Australian High school teacher, we will round out my presentation with some discussions about teaching in Australia, some commonly used teaching strategies and how students and systems differ from Czech. Lastly, if time allows, we will have a time for open discussion based around interesting conversation topics or some recent global events.

Veronika Kotůlková - Deutsch mit Bewegung

Um effektiv zu lernen, müssen möglichst viele Sinne aktiviert werden. Ein ebenso wichtiger Faktor für einen erfolgreichen Lernprozess ist aber auch die Möglichkeit sich zu bewegen. Dies belegt auch die Neurodidaktik, die sich unter anderem mit dem Zusammenhang von Bewegung und Lernen beschäftigt. In dem praxisorientierten Seminar erfahren Sie interessante Erkenntnisse aus der modernen Lernprozessforschung. Sie probieren die praktische Anwendung effektiver bewegungsbezogener Lernmethoden aus und versuchen nachzudenken, wie konkret Sie mehr Bewegung in Ihren Deutschunterricht einführen könnten.
